THE BEARTOOTH HIGHWAY BY THE MILE

Instructions: set your trip odometer to zero at the Bearcreek bridge on the south end of town (Junction of Hwy 308 & Hwy 212). Mileage is south from that point.

1 0 MILES — RESET YOUR ODOMETERaaaaaaand, you're off!! See you in Yellowstone Park!!

2 14-22 MILES (APPROX.) — ROCK CREEK SWITCHBACKS

We're climbing, and climbing, and climbing...! Starting at 8,000' elevation at the bottom of the switchbacks, you climb over 1,500' in these 7 miles. (Note: Wondering what those huge chain-link fences are all about? In May of 2005, a week before the Highway was scheduled to open, nine inches of rain fell in three days up here, causing a massive mudslide that tore down the canyon, dislodging more 500,000 cubic tons of rock and closing the highway. Incidentally, the reconstruction effort that summer cost \$20 million — the same amount, adjusted for inflation, that was originally spent to build the road in the 1930s! For an awesome display of the reconstruction effort, stop in at the Red Lodge Visitor Center.)

Aerial View of the Beartooth Highway © Merv Coleman

3 19.7 MILES — VISTA POINT REST AREA

Chipmunk feeding Station, number One! Who remembered to bring the sunflower seeds? (Random trivia: As you leave the parking area, the series of curves in the road ahead were named the "Mae West curve" after the buxom and sassy star of the 1930s. There even used to be a sign saying so, but as local legend has it, it was taken

down because it was "too risqué." Really.

4 16-26 MILES (APPROX.) — VIEWS OF HELLROARING PLATEAU

Look across the valley to your right; that plateau is called Hellroaring for a reason, and not just because it's always windy. The road climbing that side of the valley covers the same elevation gain in half the miles, and it's dirt, with no guard rails! It's not for the faint-of-heart, but it sure is fun. :)

5 23.9 MILES — STATE LINE AND 45TH PARALLEL Selfie time!!

Until someone sends us a selfie proving us wrong, we're gonna stick with our story that this is this highest elevation state Welcome sign in the U.S. Cuz that's how we roll. (It's also the 45th Parallel, meaning you're now exactly halfway between the North Pole and the Equator.)

6 27 MILES — BEARTOOTH BASIN (Formerly the Red Lodge International Ski & Snowboard

Camp) How cool is this? 35 bucks for a half-day pass, and you can ski at 10,000' during summer vacation! (The season ends July 4th weekend depending on snow levels, so check beartoothbasin.com for conditions before you head up.)

7 28.2 MILES — GARDNER LAKE PULLOUT Keep a lookout for mountain goats and skiers on these rock walls (the mountain goats are the ones climbing the slopes on all fours). Since the Gardner Headwall in front of you faces north-east, it gets very little direct sun, so it keeps its snow late into the summer. You'll see skiers and snowboarders taking turns here almost any time you drive this road.

8 29.6 MILES — THE BEAR'S TOOTH Ever wonder where the Beartooths get their name? Well, it may depend on who you ask. Travel ads from the 1940s (and old-timers who were here before the road was built) claim that a rock formation atop Beartooth Butte (42.2 miles) is the "Bear's Tooth." These days, however,

Motorcycling on the Beartooth Highway © Beartooth Rally

THE MOST BEAUTIFUL ROADWAY IN AMERICA

most of us think of the spire jutting up like a fang across the valley from you here as that famous "Tooth." We may never know for sure, because the name "Beartooth" is a translation of a Crow Indian word: "na piet say," and so far, we haven't found record of what exactly those early Crow

were referring to. What do you think?

9 30.5 MILES — WEST SUMMIT OVERLOOK We did it! Elevation 10,947'. Who's gonna climb out to that rock pile with me to make it official? Come on, it's not that windy!!

10 37.6 MILES — ISLAND LAKE Need to get out and stretch your legs after all those turny-turns? There are lots of short (or much longer) hikes that take off from the boat launch here at the lake. Just make sure you bring a jacket and mosquito repellent, because those

tundra-ey bushes are major mosquito breeding grounds. (The mosquitos tend to be less prevalent later in the summer, so if you're here in August or September, you might not need a transfusion mid-hike.)

gas, snacks, & souvenirs along the Highway. Because the Highway was originally built as a "National Park Approach Road," it was designed to have minimal development. This store was originally built at Beartooth Lake in 1934, before the Highway was constructed, and was moved to this location in 1964. So it kinda makes you wonder...how do ya s'pose people were getting to the store before they built the road?? Things that make ya go "hmmm....."

12 40.7 MILES —
13 BEARTOOTH LAKE & BEARTOOTH BUTTE

Beartooth Lake was once a

pretty happening location. Along with the Top of the World Store which was moved two miles east, there were two campgrounds, a lodge, and some commercial and private cabins here. Imagine riding those 40 miles on horseback over rough miners' and hunters' trails to get to your summer cabin! In other trivia, marine fossils have been found in the rock of Beartooth Butte — at elevation 10,514. Hmmmm,...."

14 42.2 MILES — CLAY BUTTE LOOKOUT Don't skip this turnout! A quick, easy 3-mile gravel road will take you up to an old fire lookout

tower, and the views from here really are amazing. Inside, there are some interpretive displays of the 1988 Yellowstone wildfires, which seems like just yesterday but was actually nearly 30 years ago. It gives you a great perspective for driving through the Park.

15 43.2 MILES — PILOT AND INDEX PEAKS OVERLOOK

In any kind of weather, this Overlook will take your breath away. To the east (your left), you're looking down the Clark's Fork River valley and into Wyoming. Can you pick out Heart Mountain, the two-humped limestone formation to the east of the

snowcapped ridges? That's just north of Cody, Wyoming. The peaks to the south and west of you here are pretty much all in Yellowstone Park. (Just to be clear: Index Peak is the northern one; Pilot is the pointy one due south of it, and they're both just across the border inside the Park.)

16 48.6 MILES — LAKE CREEK FALLS Another Must-Stop location. An easy 200-yard walk will take you to an old footbridge over the creek here. The power of all that water gushing between two massive blocks of granite is truly impressive.

150+ WINES | LOCALLY RAISED BEEF | HAND CUT STEAKS

17 49.9 MILES — CHIEF JOSEPH SCENIC BYWAY

Take the scenic route! (The other scenic route!) Turning left here onto the Chief Joseph Highway will loop you back to Red Lodge through Wyoming, via the Clarks Fork river valley. The first 47 miles take you from the high mountain country out to the grasslands of Wyoming. From there, your view back toward the mountains is a different kind of beautiful, especially if you get the chance to watch

Beartooth Pass Summit

thunderheads building over the open prairie.

18 52.6 MILES — CRAZY CREEK FALLS & CAMPGROUND

If you happen to be here in June, when water levels are high from spring runoff, don't miss this falls. (Actually, don't miss it, whatever season you're here.) This isn't one of those 1000-foot-dropoff kinds of falls, but the water pouring and tumbling over these rocks is mesmerizing. If you're into that kind of thing.

19 64 MILES — COOKE CITY & SILVER GATE

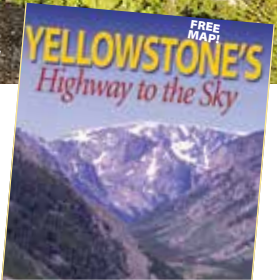

Refuel Time!! Food, gasoline, coffee, beer, whichever of your tanks are empty, you can get 'em filled up in these two lively, make-hay-while-the-sun-shines towns. Largely cut off from the world 8 months of the year, Cooke and Silver Gate pull out the all stops in the summer season. Make friends, support the locals, and help keep these communities strong.

20 68.8 MILES — YELLOWSTONE NATIONAL PARK, NORTHEAST ENTRANCE GATE

Woohoo!!! You did it! (Now check your watch; how long did that take?) Note: While you can't get cell service right here, there is a good chance you'll be able to post all those Facebook selfies about 9 miles ahead near the Pebble Creek campground. Don't ask us why.

BEARTOOTH RALLY 31ST ANNIVERSARY

Red Lodge has been hosting the annual Beartooth Rally since July of 1995. Since the Rally's inception it has been held on the third weekend in July.

Though the Rally is a weekend event you can see many amazing bikes and vendors of all sorts start arriving throughout the week to set up camp (conveniently located next to the Rodeo Grounds) and enjoy all Red Lodge has to offer. The local main street turns into a gallery for viewing many odd,

unique and beautiful bikes.

The Beartooth Rally brings people from all parts of the world together to enjoy the many motorcycles, people, and beautiful scenic rides around Red Lodge. As the weekend approaches the streets will start to fill with motorcycles of all shapes and sizes. The motorcycles' chrome accents shimmer on the streets as the riders walk up and down the main street with shopping bags and ice cream in hand.

The week's festivities kick off on Thursday with a local poker walk throughout the afternoon followed by live music in the evening at the Home of Champions Rodeo Grounds. Friday, riders participate in the Bone Daddy's Poker Run Loop exploring the surrounding communities and taking in the breathtaking views of the Absaroka Beartooth Mountain range.

Saturday's poker run begins with preparation for the graceful curves of the Beartooth Highway that ascends up to 10,947 feet and wraps back around to the Chief Joseph/Sunlight Basin Highway. Be sure to charge your phone as there will be plenty of photo opportunities to capture. Guests enjoy food trucks, vendors, street dances with live music/bands throughout the week. Winding out the week is the Iron Horse Rodeo held at the Rodeo Grounds.

Once the Beartooth Rally has

ended you will find you have new friends and a new fondness for Red Lodge. A community that does not roll up its main street but rolls it out embracing your friendships, support, and welcomes you back year after year, not just for this Rally but also to come and enjoy our skiing, hiking, fishing, and year-round fun for the family.

NICK GADDY: A SERIOUS SENSE OF PLAY

TELL US LITTLE ABOUT YOURSELF...

I wear many hats in our community. I am the Executive Director of Beartooth Trails, a local nonprofit, Head Coach of the Silver Run Freeride Ski Team, and a Mountain Guide for Beartooth Mountain Guides. I also volunteer for Red Lodge Search and Rescue, the Red Lodge Chamber of Commerce, and the Red Lodge Skimo Club.

WHAT ARE A FEW OF YOUR FAVORITE ACTIVITIES?

Skiing is my passion, and the Beartooth Mountains provide many opportunities to slide on snow. I also enjoy climbing, mountain biking, running, and backpacking. My dog, Sylvie, loves getting outside too and joins me on many of these adventures.

WHAT IS YOUR FAVORITE NEARBY TRAIL?

That is a tough question. We have so many amazing trails close by. I have probably spent the most time over the years on the Silver Run trails. They are close to town, along the West Fork of Rock Creek and great for biking, hiking and running.

WHAT'S THE BEST THING ABOUT RED LODGE?

Our community. In the 12 years I have lived in Red Lodge

© Nick Gaddy

I have seen our community come together to overcome challenges, and improve our town.

TELL US MORE ABOUT BEARTOOTH TRAILS:

Beartooth Trails is a volunteer driven non profit focused on promoting year round non-motorized recreation opportunities in the greater Red Lodge area. We operate the Red Lodge Nordic Center and groom the West Fork Road. We also build trails at Red Lodge Mountain and in the City of Red Lodge. I feel really lucky to be able to work for such a wonderful organization that combines my passion for the outdoors and my love for the community.

LOW KEY, HIGH ELEVATION

From a leisurely hike on the Silver Run Trails to mountain biking down Red Lodge Mountain, there's an adventure, or two or three, in Red Lodge for you. If competition is up your alley check out **WWW.REDLODGEEVENTS** for some hiking and biking race options. For local trails see the map on page 25.

COME OUT AND PLAY

When your backyard consists of over a million acres of high country wilderness, being told to “Go outside and play” is taken literally. Living here is all about tackling the Great Outdoors, and we make it easy for you to join in the fun. Just ask your waiter or hotel clerk where they go when they’ve got an hour free (or a day, or a week!), and you’re sure to get an insider’s peek into the best there is.

A FORK IN THE ROAD...

Within 15 miles of town, there are more than a dozen city and Forest Service trailheads linking you to well over a hundred miles of stunning Beartooth Mountain scenery, and fewer than half of them are restricted to foot-or-horse traffic only. So whether you're on foot, horseback, two tires or four, there's a trail that's calling your name. Special thanks to Beartooth Recreational Trails Association, a non-profit group dedicated to promoting non-motorized trails in the Red Lodge area.

KRISTEN HOLLUM: SEE YOU ON THE STARTING LINE

Kristen owns Red Lodge Events, a small outdoor racing and events company that focuses on getting people of all ages and abilities moving their bodies in our wild backyard. They currently organize eight races in Red Lodge and the surrounding area that range from an untimed Turkey Trot to ski mountaineering to rugged trail 50k's.

WHAT BROUGHT YOU TO RED LODGE? I came to Red Lodge through the AmeriCorps

VISTA program hosted by the Red Lodge Area Community Foundation. I had never been to Montana and didn't know much about it, but I'm so glad I landed here nearly 13 years ago!

WHAT'S YOUR NEXT RACE? Our next race is 24 Hours of Elk Basin just outside of Red Lodge on June 14-15. Running, mountain biking, camping, catered food and so much more!

WHAT DO YOU DO IN YOUR FREE TIME?

Anything outside with my partner, Nick, and our dog, Syvlie. Trail running, mountain biking, gravel biking, nordic skiing, alpine skiing... the list goes on!

WHAT IS YOUR FAVORITE LOCAL TRAIL?

It's impossible to choose! We have the perfect mix of popular classics and hidden gems -many of which you can get to within 10 minutes of town. I really like trails I've helped build or improve with Beartooth Trails or Absaroka Beartooth Wilderness Foundation -like the Palisades Trail or the Scrims Trail at Red Lodge Mountain.

WHAT IS YOUR FAVORITE THING ABOUT RED LODGE?

Everyone in this town, whether a local or a visitor, knows how special it is. Everyone is happy to be here, happy to help and lend a hand, and happy to call it home -for forever, or just a few nights.

Check out Red Lodge Events at www.redlodgeevents.com.

KEEP IT THE LAST BEST PLACE

They call Montana "The Last Best Place" because it's just that remarkable.
Here's what you can do to help keep it that way.

LEAVE NO TRACE 7 PRINCIPLES

Thinking ahead leaves more time for exploring and less time for worrying.

The paths are where it's at. Staying on trails keeps nature, wildlife and even you safe!

From small rocks to historical artifacts and cultural items, everything has a home and purpose in Montana.

There's nothing like witnessing wildlife. The view is best, and safest, from a distance.

Leave no ember behind. It's vital to practice general fire safety and drown out campfires.

As we like to say, pack it in and pack it out. All waste has its proper place.

Loving Montana means respecting our communities and everyone you meet.

THAT'S HOW YOU

FEELING FANCY? **CARBON CO. STEAKHOUSE**, or **BLACK CANYON BISTRO** is a sure bet for that special evening out.

WELCOME HOME, CHEF CHASE CARDOZA

Having spent the last nine years in Salt Lake City, Chef Chase Cardoza is returning home to Red Lodge to proudly proclaim the Beartooth Mountains as his backyard once more.

Growing up surrounded with an abundance of heirloom ingredients and open-range livestock instilled a deep passion for heritage farming and ranching. This passion lends to the dedication of showcasing the local bounties and culture that Montana has to offer.

He honors the rich history of the Big Sky while ever pressing towards new, and grand horizons.

Chase is excited to be home, and even more excited to usher a new era of culinary excellence in Red Lodge. When he's not in the kitchen Chase is an avid outdoorsman; a skier, fly fisherman, camper, hiker; consumer of fine literature, food, and delicious beverages.

SAVOR EVERY MOMENT

Be sure to get to know the tastier side of Red Lodge. Try one of the (many!) restaurants for a quick burger & a beer, or linger over a meal so perfect it should have its own social feed.

Take a drive west out of town, and Highway 78 will escort you deep into some of the most beautiful country you'll ever set eyes on. Wide, sweeping turns of two-lane blacktop open up vistas of meadows so lush they were once among the country's largest producers of wool. To this day, most of this land is used for beef production, on small family ranches run by descendants of the valleys' first homesteaders in the 1910s and '20s.

But it wasn't agriculture that first brought white men to this high country. After gold was discovered in the granite mountains around Cooke City, prospectors fanned out over this whole territory. Instead of gold, what they found in the Stillwater River valley was Chromite – a metal whose fortunes are tied to war, as it is critical in hardening steel for munitions.

The area's first mining company started up in 1884, and within two years the town of Nye boomed to nearly 400 hardy souls supported by a smelter, store, commissary, and six saloons (the more civilizing influences of a church and

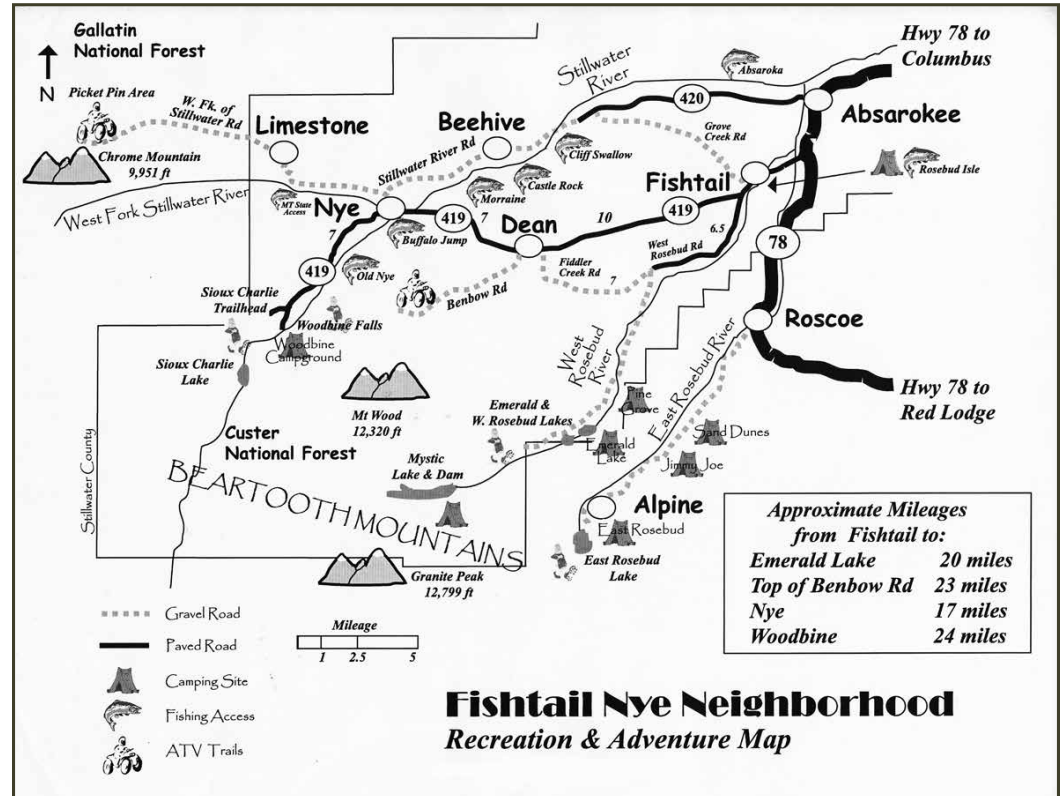

school would come later). During the mining years, the real backbone of this area took hold. Montana was in its homesteading boom, and between 1909 and 1923, more than 1,300 claims were staked in Stillwater county.

July's annual Nye Goes Nuts celebration originated in 1939, when 1,400 neighbors and friends gathered on a local ranch for a party that included wrestling, clowns,

snake charmers, a picnic and fundraiser. The event is still a great way to take a peek into how a vibrant ranching community lets loose and shakes off the long winter.

Once you're in the neighborhood, you can't help but stop off in Fishtail. With a population of 78 and a main street one block long, you'll feel like you've stepped back in time. But this little town is long on charm, so whether you

manage to catch their Fishtail Family Fun Day in June, or find yourself wandering the aisles of the General Store that dates back to 1900, you're gonna love Fishtail. Don't say we didn't warn you. And, speaking of warnings, here's one to chew on: These people know beef. For steaks (and more) that go beyond your expectations, stop in at any of the restaurants in the valley. No really, do. And come hungry.
